Tips For a Healthy Home

Open windows as much as possible. Welcome in fresh air. The EPA finds that indoor air is more polluted than the air outside, no matter where you live.

Use greener cleaners (see back for recipes).

Take shoes off at the door to prevent tracking in outdoor pollutants.

Eliminate use of pesticides inside and out. Use traps and non-toxic sprays.

Cleaning labels that say, "danger," "poison," "flammable," or "toxic" should be avoided.

Antibacterial soaps were banned by the FDA
SOAP + WATER = CLEAN HANDS

Research How can you clean your indoor air? Grow indoor plants. Plants are nature's air filters. NASA has done studies to find out which common indoor plants work best to absorb contaminants such as benzene, formaldehyde and trichloroethylene.

CURES is funded by the National Institute of Environmental Health Sciences #P30 ES020957.

TIPS FROM OUR FRIENDS AT THE

Use Greener Cleaners

Combining specific common household ingredients — many of which are food-grade — will save you money. Remember as with any cleaning agent, test on a small spot to be sure you are satisfied with the results. Also be sure to use clean, dry containers. Label any jars containing cleaners you will save for another day.

- Rather than air fresheners or artificial fragrances, use **baking soda** to absorb odors.
- Avoid anti-bacterial soaps and products labeled with claims to “kill germs”.
- **White vinegar** is a food-grade antimicrobial. Spray it on countertops to clean.
- Wash hands for 20-30 seconds with **warm water and mild soap** to remove germs.

RECIPES

ALL PURPOSE SPRAY

- 1 teaspoon borax
- ¼ - ½ teaspoon washing soda
- ¼ teaspoon liquid castile soap
- 10 drops of essential oil (optional)

Put borax and washing soda in spray bottle. Add 8 oz. hot water. Shake to dissolve. Add liquid soap and essential oils. Leave out washing soda if using on fiberglass—it will scratch.

MILDEW ERASER

You don't need harsh chlorine bleach to kill mold and mildew. Instead mix one cup of water with **one** of these:

- 1 teaspoon of tea tree oil
- 1 cup of hydrogen peroxide
- 1 cup distilled white vinegar

OR

- 2 tablespoons borax

GLASS CLEANER

Pour equal amounts of distilled white vinegar and water in a spray bottle. Wipe dry with crumpled newspaper, a lint-free soft cloth, or use a squeegee.

Earth Friendly Shopping Around Detroit

These stores carry non-synthetic fertilizers and non-toxic pest control products.

Allemon's Landscape Center
17727 Mack Ave., 48224
